

**New York Geomatics deployed Microsoft 365 Business to enhance their collaboration, productivity, and security.**

### **About New York Geomatics:**

New York Geomatics is a boutique surveying firm, which specializes in specialty surveying techniques for specific high precision projects. It is a leader in providing value-added surveying services throughout the engineering and construction process. They mainly specialize in the construction and engineering layout, as-built, and monitoring of bridges, tunnels, buildings, tracks, and heavy infrastructure.

For more information, you can explore <http://www.newyorkgeomatrics.com>

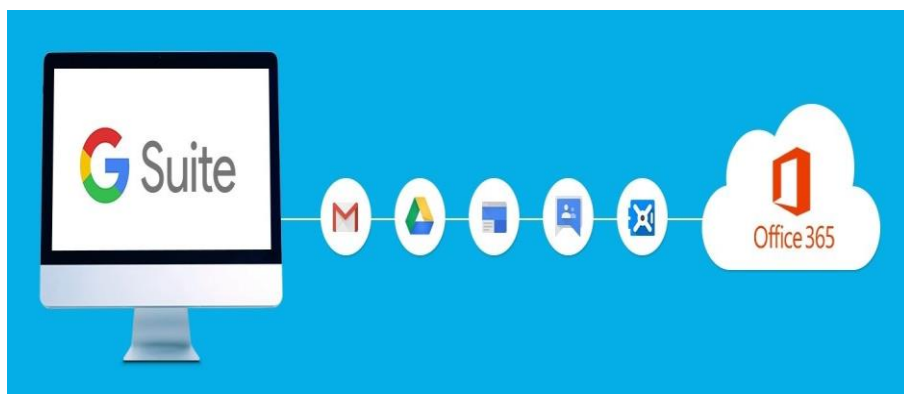

### **Business Requirement:**

Many professional services companies like New York Geomatics are concerned about their ability to safeguard their business from cyber attacks and keep their data safe. Subsequently, the client needed a platform that allows a Single Sign-on and enhanced security for their business.

### **Solution Delivered:**

CloudFronts team enabled migration of mailboxes from G Suite to Exchange Online and Google Drive to One Drive along with organizational policies implemented for security and compliance.

Microsoft 365 Business is a subscription service that lets you run your organization in the cloud while Microsoft takes complete care of managing devices, protecting against real-world threats, and subsequently, securing your organization. It also lets you collaborate the best-in-class productivity of Office 365 with simple device management and security to connect people and information in a seamless manner.

**Key Technologies:**

1. Microsoft 365 Business

**Post Go Live:**

Post Go-Live on 30 November 2019, the client is able to reap following benefits:

1. Better Capabilities, collaboration and Integration on both mobile and desktop Apps.
2. Lower Costs (G Suite rates have recently gone up for Business users thereby, cutting off its cost advantage).
3. Better Security Against Phishing and Data Theft
4. More Control for Administrators and IT Departments.
5. Increased Privacy for the client and their teams.
6. Better offline capability.
